- [www.comptia.org](http://www.comptia.org)
-

# What courses can you do in Programming

- UCC
- CIT
- CCOC
- You can still program if you are not good at maths.
- Key requirement is logical thinking, not maths

# So I want to program what should I look for

- Programming languages change
- If your looking at a Cert/Dip/Degree make sure it teaches a few programming languages
- These should include
  - Java/C/C++
  - Assembler (requirement for hardware programming)
  - Scripting languages Perl, PHP, VBscript, JavaScript
- CIT
- CCOC
- You can still program if you are not good at maths.
- Key requirement is logical thinking, not maths
- You Don't have to have a qualification to program.
